Plans, credits and billing

The highest-traffic support topic. Be precise about numbers, and never promise a refund — see section 11.

1. What this is

AlgoJob has two plans: **Basic**, which is free, and **PRO**, which is paid. Separately from plans, you can buy **top-up packs** that add interview or assessment sessions to your account without subscribing.

2. The single most important thing to get right

PRO does not unlock products. It raises your limits.

Every arena — Mock SVAR, Mock Debug, Mock Aptitude, Code Byte — and every basic report is available on the free Basic plan. PRO gives you more attempts per week, more daily XP, advanced reports, a monthly interview credit and cheaper top-ups.

If someone asks "do I need to pay to use SVAR / Debug / Aptitude?", the answer is **no**.

3. Names and terms

A user might say	Meaning
premium, paid, subscription	PRO
free plan, normal account	Basic
credit, session, token	an interview credit or an assessment credit
top-up, pack, bundle	a one-off purchase of credits
XP, points	experience points — earned, not bought; see <code>22-xp-levels-and-rewards.md</code>
renewal, auto-pay	the automatic monthly or yearly charge

4. The plans

	Basic	PRO
Price	Free	₹299/month or ₹2,388/year
Price including 18% GST	—	₹353/month or ₹2,818/year
AI interviews included	0 per month	1 per month
Mock SVAR attempts	3 per week	4 per week
Mock Debug attempts	3 per week	4 per week
Mock Aptitude attempts	3 per week	4 per week
Daily XP cap from aptitude	25	50
Daily XP cap from coding	10	20
Reports	Basic reports	Advanced reports for Debug, SVAR and AI Interview
Level-up XP bonus	Standard	1.5x
Discount on top-ups	—	33% off

There is no other plan. If a user asks about "PRO+", tell them it is not available.

The monthly interview credit does not roll over. An unused PRO interview from January does not add to February.

5. Top-up packs

Buy these without subscribing. Prices below are before GST; PRO subscribers pay **33% less**.

Pack	Contains	Price	Valid for
AI Interview – 1	1 interview	₹99	1 month
AI Interview – 3	3 interviews	₹249	2 months
AI Interview – 5	5 interviews	₹399	3 months
MCQ + Debug + SVAR	1 session of each	₹199	1 month
MCQ + Debug + SVAR + AI Interview	1 of each, plus 1 interview	₹299	1 month

Validity runs from purchase, and differs per pack — the 5-pack lasts longer than the 1-pack. Credits that pass their validity date expire and are not refunded.

6. How interview credits are used

You can hold credits from three sources at once. They are spent in a fixed order, oldest-expiring logic first:

1. **Your monthly PRO allowance** — use it or lose it at the end of the month.
2. **XP-earned credits** — every 300 XP earns one, valid 3 months.
3. **Purchased top-ups** — used in the order you bought them, each with its own expiry.

This ordering means your monthly allowance is always spent before credits you paid for.

Assessment credits (from the bundle packs) work differently: they are only consumed **once you have hit your free weekly limit**. Practising within your weekly allowance never touches them.

7. Billing, renewal and cancellation

- **Payment is through Razorpay.** Cards, UPI and netbanking are handled there, not by AlgoJob.
- **You have 15 minutes to complete a checkout** before the order expires. An expired order is cleaned up automatically; start again.
- **Renewal is automatic** unless you cancel. A renewal order is created ahead of the renewal date and you have a few days to pay it, with a grace period on your access.
- **Upgrading** is immediate and prorated — you pay the difference and get PRO straight away.
- **Downgrading** takes effect at your next renewal date, not immediately. You keep PRO until then.
- **Cancelling** stops auto-renewal. The confirmation reads, exactly: *"Subscription cancelled. Access continues until the current billing period ends."* You keep PRO until the end of the period you already paid for.
- **You cannot pause a subscription.** Only cancel.
- **Invoices** are downloadable as PDFs from the Payments page.

8. When things go wrong

"I paid but nothing happened"

Payment confirmation arrives from the payment provider, and there can be a short delay. Refresh the Payments page. If the plan or credits have not appeared after a few minutes, **contact support with your payment reference** — do not pay again.

"I was charged twice"

Contact support with both payment references. Do not attempt a chargeback first — it is faster to resolve directly.

"My credit did not come back after a failed interview"

Credits are held at the start of an interview and only actually spent once a report exists. If no report was produced, the hold releases automatically — allow about an hour. If it has not returned after that, contact support.

"I bought a top-up and my credits expired"

Top-up validity runs from purchase and is per pack — 1, 2 or 3 months for interview packs. Expired credits are not restored. This is why the validity is shown on the pack before you buy.

"I cancelled but I still have PRO"

Correct and intended. Cancelling stops the next charge; your access continues until the end of the period you already paid for.

"I cancelled by mistake"

Resubscribe from the Payments page. If your current period has not ended yet, contact support before paying again.

"I upgraded but was charged the full price"

Upgrades are prorated against your remaining period. If the amount looks wrong, contact support with the order reference.

"My checkout window closed"

Orders expire after 15 minutes. Start a new checkout.

"I ran out of attempts but I am on PRO"

PRO gives 4 attempts per week per arena, not unlimited. Wait for the week to roll over or buy an assessment bundle.

"Where is PRO+?"

PRO+ is not available. There are two plans: Basic and PRO.

9. Common questions

How much is PRO? ₹299 per month or ₹2,388 per year, plus 18% GST — so ₹353 and ₹2,818 at checkout.

Is the yearly plan cheaper? Yes. ₹2,388 a year works out well below twelve months at ₹299.

Do I need PRO to use SVAR / Debug / Aptitude? No. All arenas are free on Basic. PRO gives more attempts per week and advanced reports.

Do I need PRO to do an AI interview? No, but you need a credit. On Basic, earn one with 300 XP or buy a top-up pack.

How do I get free interview credits? Every 300 XP converts to one interview credit, valid 3 months. See [22-xp-levels-and-rewards.md](#).

Do unused credits roll over? The monthly PRO interview does **not** roll over. XP-earned credits last 3 months. Purchased credits last for their pack's validity.

Can I buy just one interview? Yes — the AI Interview – 1 pack, ₹99 before GST, valid one month.

Can I get a refund? Refunds are handled case by case by the support team. Do not state a refund policy — route the user to support. See section 11.

What payment methods work? Whatever Razorpay supports for your account — cards, UPI, netbanking.

Where is my invoice? Payments page, in your order history — downloadable as a PDF.

Does cancelling delete my account or my reports? No. You drop to Basic limits and keep your account, history and reports.

Can I pause my subscription? No. You can cancel and resubscribe later.

Is there a student discount? Not documented. Route to support rather than guessing.

10. What this does not do

- No plan other than Basic and PRO exists.
- Subscriptions cannot be paused.
- Downgrades never take effect immediately.
- Expired credits are not restored.
- **AlgoBuddy / counselling sessions are not currently available for purchase**, whatever the pricing page may still show.

11. When to contact support — and what never to state

Always route to a human: - Any refund request. There is no published refund policy to quote. Do not state or imply one, in either direction — do not say refunds are available and do not say they are not. Say that refunds are reviewed by the support team and pass the request on. - Money taken with nothing delivered. - Double charges. - A credit that has not returned more than an hour after a failed interview. - Anything involving a chargeback or a dispute already opened with a bank. - Questions about GST invoices for a company or institution.
